How to use the cue sheet:

Each line of the cue sheet has 4 items that help with navigating the route.

The 1st number on the left is the total mileage from the start of the route.

The 2nd item to the right of the mileage, an upper case letter or letters, indicates a turn or direction of travel.

The 3rd item shows the road name and or other pertinent information.

The 4th item, the number at the end of the line is the mileage to the next turn.

The following abbreviations are used on the cue sheet:

R = right turn L = left turn S = straight BR

BR = bear right

BL = bear left

R/L = turn right then in a short distance turn left

L/R= turn left then in a short distance turnf R

Information regarding the road markings:

Two types of road markings are being used, orange arrow decals and or white painted sysmbols.

The markings are to indication the direction of travel.

The orange arrows look something like the following and point in the direction of travel.

= go right

The white painted symbols look something like the following, the straight line points in the direction of travel.

s = go right = go left = go sraight

Red and yellow duct tape markings are found on parts of the course, do not follow those!
